Better time management. Often we spend half the class on the first problem and then rush through the rest afterwards

Very clear on teaching. Takes the effort to explain everything

Great effort every single class. Answers all questions from students in detail. Makes sure everyone understands what he's talking about

Great job! Feedback system makes sense, ("Are you happy?") sometimes not perfectly accurate though

Well prepared and cares a lot about students actually understanding the material

Super committed & well prepared. Takes the time to clarify concepts

Very organised, very clear
